

Marine Heating Systems

Eberspächer

Hot water systems from Eberspächer

A boat is a major investment – an investment in pleasure – and the most effective way of maximising your return is by extending your season.

Eberspächer, with their new range of self regulating diesel fired heating systems, can help you make boating all year round a reality.

Consider the benefits of a new high-performance hot water heating system from Eberspächer.

- Automatic temperature control**
 Cabin temperature can be controlled automatically using radiators with thermostatic valves or room thermostats in conjunction with fan matrix blowers.
- Variable heat output**
 By self regulating between high and low heat output, constant "On-Off" switching of the heater is greatly reduced.
- Maximum efficiency**
 The Eberspächer range of water heaters offer full heat control, cabin heating and domestic hot water facilities, whilst consuming the minimum of electrical power and fuel
- Long life ignition glow pin**
 The latest low power, long life glow pin technology has been incorporated into the new Hydronic range. The glow pin is used only once per operation for initial starts.

HYDRONIC 4

	Power	High	Low
Heat Output (kW)	4.0	3.3	1.6
Fuel Consumption (l/hr)	0.51	0.4	0.2
Electrical input (watt)	40	35	18

Water throughput (l/h) 500 against 0.1 bar
 Weight: 2.5 kg,
 Fuel: Diesel or Paraffin,
 Rated voltage: 12v
 Control Options: Manual Switch, Programmable Timer

HYDRONIC 5

	High	Low
Heat Output (kW)	5.0	2.4
Fuel Consumption (l/hr)	0.62	0.27
Electrical input (watt)	53	23

Water throughput (l/h) 900 against 0.1 bar
 Weight: 2.9 kg,
 Fuel: Diesel or Paraffin,
 Rated voltage: 12v
 Control Options: Manual Switch, Programmable Timer

HYDRONIC 10

	Power	High	Medium	Low
Heat Output (kW)	9.5	7.5	3.2	1.5
Fuel Consumption (l/hr)	1.2	0.9	0.4	0.18
Electrical input (watt)	125	76	42	35

Water throughput (l/h) 1400 against 0.14 bar
 Weight: 6.5kg,
 Fuel: Diesel or Paraffin,
 Rated voltage: 12v or 24v
 Control Options: Manual Switch, Programmable Timer

The hot water systems illustrated are supplied in a fully comprehensive DIY kit form ...

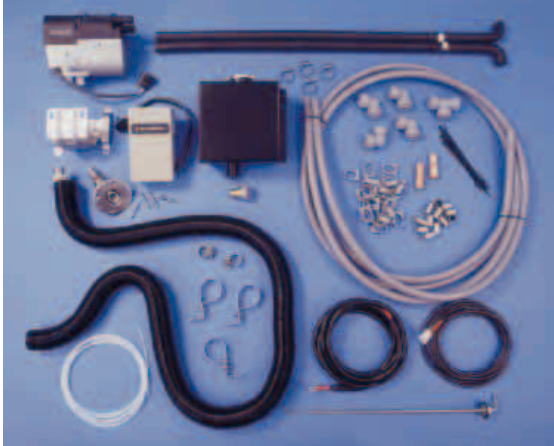

Each kit comes complete with a comprehensive instruction manual to ensure installation is as simple and straight forward as possible and, for further reassurance of quality, is backed by a full 12 months parts and labour warranty throughout a nationwide dealer network.

Narrowboat versions of these kits also available.

All kits include our digital mini programmer*

*Excludes narrow boat kits

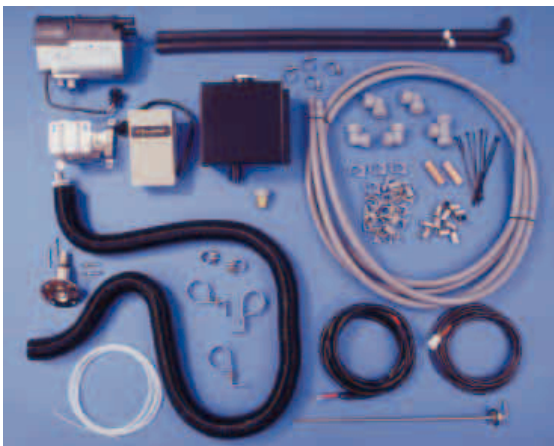

HYDRONIC 4*

kit contains:-

- Hydronic 4 heater with integral electronic control
- Long life ignition pin - used only once per heating period for initial starting
- Mini digital 7 day programmer (now with battery back-up)
- All electrical harnesses and connections
- 2 metre insulated exhaust system with silencer
- Complete fuel system
- Header tank
- Stainless steel heater mounting bracket
- Stainless steel exhaust skin fitting
- 8 Metres water pipe and fittings
- Comprehensive installation manual

E1727 Hydronic 4 complete marine kit 12v

Note: Radiators, fan matrix and calorifiers are not included

HYDRONIC 5*

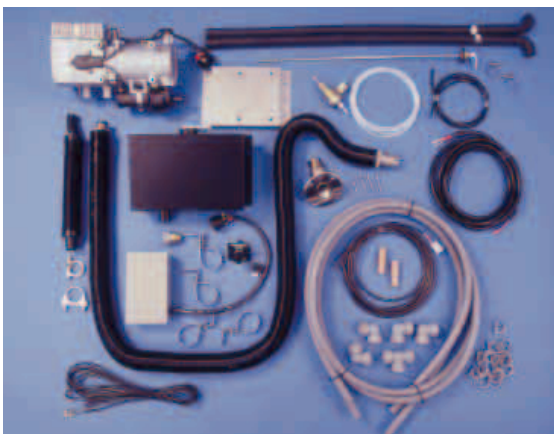

kit contains:-

- Hydronic 5 heater with integral electronic control
- Long life ignition pin - used only once per heating period for initial starting
- Mini digital 7 day programmer (now with battery back-up)
- All electrical harnesses and connections
- 2 metre insulated exhaust system with silencer
- Complete fuel system
- Header tank
- Stainless steel heater mounting bracket
- Stainless steel exhaust skin fitting
- 14 Metres water pipe and fittings
- Comprehensive installation manual

E2649 Hydronic 5 complete marine kit 12v

E2924 Hydronic 5 complete marine kit 24v

Note: Radiators, fan matrix and calorifiers are not included

HYDRONIC 10*

kit contains:-

- Hydronic 10 heater with integral electronic control
- Long life ignition pin - used only once per heating period for initial starting
- Mini digital 7 day programmer (now with battery back-up)
- All electrical harnesses and connections
- 2 metre insulated exhaust system with silencer
- Complete fuel system
- Header tank
- Stainless steel heater mounting bracket
- Stainless steel exhaust skin fitting
- 23 Metres water pipe and fittings
- Comprehensive installation manual

E3554 Hydronic 10 complete marine kit 12v

E3428 Hydronic 10 complete marine kit 24v

Note: Radiators, fan matrix and calorifiers are not included
