

# Truma Ultrastore

Another very popular product from within the Truma range is the Ultrastore water heater. Available as both gas and gas/electric variables we have a heater to suit your need and travelling type, whether you are hooking up electrically onsite, or relying on you gas bottles on a rally, you never need to lose out on a nice hot shower!

For both design and suitable purposes, we have a 10L and 14L option to, so if you're travelling alone or have the family on board, there's no need to fit a heater that doesn't suit you.

The gas burner heats the water very quickly and efficiently. This can be sped up further if using the 850W electric element option. All heaters come with a control switch so that you can control how hot you want your water to be.

Key Features include:

- An inexpensive gas-powered water heater
- Short heating times
- Water temperature range of 30oC – 70oC
- Stainless steel water tank

## Technical Data:

Heating time up from 15oC – approx 70oC

For 10L water tank –	Gas operation	approx. 34min
	Electrical operation	approx. 45min
	Gas and Electric operation	approx. 25min

For 14L water tank –	Gas operation	approx. 50min
	Electrical operation	approx. 72min
	Gas and Electric operation	approx. 38min

Water hose connection (10mm)		Pressure-tight hot water hose
Gas consumption		120 g/h
Current consumption	(12V) Ignition	0.17A

	Heating up	0.08 A
	Standby	0.04 A
	(230V)	3.7 A
Water pressure		upto 2.8 bar
Weight (without water)	Ultrastore 10L	6.7KG
	Ultrastore 14L	7.3KG
Product Ident. Number		CE-0085AP0038

Ultrastore 10L gas only                    £540.00

Ultrastore 14L gas only                    £595.00

Ultrastore 10L gas and electric            £595.00

Ultrastore 14L gas and electric            £695.00
